

Enabling participation in codesign

Today

- Apply youth development principles and ethics to codesign methods.

Codesign Methods

- **Interviewing**
- Surveys
- Personal creative activities eg. vision board
- Group activities eg. World Cafe

Aroha

Tika

Pono

Concepts

Responsibility

Strengths Based

Expertise & Evidence

Accessible

Interview script

1. What's the hardest part about [problem context] ?
2. Can you tell me about the last time that happened?
3. Why was that hard?
4. What, if anything, have you done to solve that problem?
5. What don't you love about the solutions you've tried?

([Justin Wilcox](#))

Q.1 - Responsibility

What are your responsibilities to yourself, the people you serve and to your team and/or organisation within this prototype?

Q.2 - Strengths Based

How does your process acknowledge the various strengths and values of its intended audience?

How can everybody benefit from this?

Interview script

1. What's the hardest part about [problem context] ?
2. Can you tell me about the last time that happened?
3. Why was that hard?
4. What, if anything, have you done to solve that problem?
5. What don't you love about the solutions you've tried?

([Justin Wilcox](#))

Q.3 - Expertise/Evidence

Who is considered the “expert”?

What other experts/evidence bases might you plug in?

**Your lived
experience**

**Others' lived
experience**

Mātauranga

**Organisational
knowledge**

**Academic
research**

Interview script

1. What's the hardest part about [problem context] ?
2. Can you tell me about the last time that happened?
3. Why was that hard?
4. What, if anything, have you done to solve that problem?
5. What don't you love about the solutions you've tried?

([Justin Wilcox](#))

Q.4 - Accessibility

How can you make this more accessible?

Consider: tikanga, environment, language. age/stage etc

Synthesis

Across the four areas take a piece of a4 and write out the process you might use to interview someone.
